DETAILED ACTION

1. In view of the appeal brief filed on March 16, 2006, PROSECUTION IS HEREBY REOPENED. Claims 1-16 and 20-28 are allowed.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below.

Response to Arguments

2. Applicant's arguments, see the appeal brief filed March 16, 2006, at pp. 8-15, with respect to claims 1-16 and 20-28 have been fully considered and are persuasive. The rejections of claims 1-16 and 20-28 have been withdrawn.

Allowable Subject Matter

3. Claims 1-16 and 20-28 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Applicant describes as prior art the technique of using a return instruction for both the situation in which code must return processing to a non-native instruction and in which code must return processing to a native instruction. (See Specification (06/25/2001) at pp. 2-5; Figs. 14-17.) Applicant describes the prior art problem of having to test, prior to making a return, whether that return is to a native calling program or a non-native calling program, *i.e.*, the prior art "return" instruction does not, itself, convey this information. (See Specification (06/25/2001) at pp. 3-4.) Applicant's claimed invention recites the use of two new types of return instructions: a "return to non-native" instruction and a "return to native" instruction. (*E.g.*, Claims 1, 15, and 20.) The specification describes these instructions as being "separate and distinct" from the prior art return instruction and effectively coding into the program the nature of the return to be made,

(Specification (06/25/2001) at p. 6)—indeed, Applicant has repeatedly asserted this interpretation of the claimed terms as a reason why the claims define over the prior art. (*See, e.g.,* Appeal Brief (03/16/2006) at p. 14; Remarks (11/24/2004) at pp. 7-8; Remarks (04/07/2004) at pp. 10-12.) The prior art of record fails to teach or fairly suggest the separate and distinct “return to non-native” and “return to native” instructions that code into the program the nature of the return to be made, in the context of the instruction interpreter recited in each of independent claims 1, 15, and 20.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
